VOLUME 204, ISSUE 1 **3 JANUARY 2005**

Potential production of Norway spruce in Sweden
J. Bergh, S. Linder (Alnarp, Sweden) and J. Bergström (Uppsala, Sweden) 1
Modeling dominant height growth based on nonlinear mixed-effects model: a clonal *Eucalyptus* plantation case study
N. Calegario (Lavras, Brazil), R.F. Daniels (Athens, GA, USA), R. Maestri and R. Neiva (Lavras, Brazil). 11
Evaluation of mature conifer plantations as secondary habitat for epigeic forest arthropods (Coleoptera: Carabidae; Araneae)
O.-D. Finch (Oldenburg, Germany) 21
Modelling the vulnerability of balsam fir forests to wind damage
A. Achim, J.-C. Ruel (Sainte-Foy, Canada), B.A. Gardiner (Midlothian, UK), G. Laflamme (Sainte-Foy, Canada) and
S. Meunier (Einstein, Canada). 35
Evaluation of the growth function of an empirical forest scenario model
E. Thürig, E. Kaufmann (Birmensdorf, Switzerland), R. Frisullo and H. Bugmann (Zürich, Switzerland). 51
Landscape dynamics of Amazonian deforestation between 1984 and 2002 in central Rondônia, Brazil: assessment and future scenarios
S.F. de Barros Ferraz, C.A. Vettorazzi (Piracicaba, Brazil), D.M. Theobald (Fort Collins, CO, USA) and
M.V.R. Ballester (Piracicaba, Brazil) 67
Moisture and soil texture effects on soil CO_2 efflux components in southeastern mixed pine forests
J.J. Dilustro, B. Collins, L. Duncan and C. Crawford (Aiken, SC, USA) 85
Retention of canopy lichens after partial-cut harvesting in wet-belt interior cedar–hemlock forests, British Columbia, Canada
D.S. Coxson and S.K. Stevenson (Prince George, Canada) 97
Developing general allometric relationships for regional estimates of carbon sequestration—an example using *Eucalyptus pilularis* from seven contrasting sites
K.D. Montagu, K. Düttmer, C.V.M. Barton and A.L. Cowie (Sydney and Canberra, Australia). 113
Mineral nitrogen dynamics following soil compaction and cultivation during hoop pine plantation establishment
T.J. Blumfield, Z.H. Xu and C. Chen (Nathan, Australia). 129

Guide for Authors 137

VOLUME 204, ISSUES 2–3 **17 JANUARY 2005**

A finite mixture distribution approach for characterizing tree diameter distributions by natural social class in pure even-aged Scots pine stands in Poland
M. Zasada (Athens, GA, USA and Warsaw, Poland) and C.J. Cieszewski (Athens, GA, USA) 145
Biomass and nutrient distribution in a highland bamboo forest in southwest Ethiopia: implications for management
K. Embaye (Uppsala, Sweden and Shashemene, Ethiopia), M. Weih, S. Ledin and L. Christersson (Uppsala, Sweden) 159
A ratio method for predicting stem merchantable volume and associated taper equations for *Cupressus lusitanica*, Ethiopia
T. Teshome (Awassa, Ethiopia) 171
Evaluation of the Laser-relascope
J. Kalliovirta, J. Laasasenaho and A. Kangas (Helsinki, Finland). 181
The use of saline mine water and municipal wastes to establish plantations on rehabilitated open-cut coal mines, Upper Hunter Valley NSW, Australia
A.M. Mercuri, J.A. Duggin and C.D. Grant (Armidale, Australia) 195

doi:10.1016/S0378-1127(04)00853-9

Use of pinyon-juniper woodlands by bats in New Mexico
A.L. Chung-MacCoubrey (Albuquerque, NM, USA) 209
Reconstruction of age structure and spatial arrangement of piñon–juniper woodlands and savannas of Anderson Mesa, northern Arizona
A. Gascho Landis and J.D. Bailey (Flagstaff, AZ, USA) 221
Browsing by guanaco (*Lama guanicoe*) on *Nothofagus pumilio* forest gaps in Tierra del Fuego, Chile
L.A. Cavieres (Concepción, Chile) and A. Fajardo (Missoula, MT, USA) 237
Edge effects and the responses of aerial insect assemblages to structural-retention harvesting in Canadian boreal peatland forests
A.M. Deans, J.R. Malcolm, S.M. Smith (Toronto, Canada) and M.I. Bellocq (Buenos Aires, Argentina) 249
Patterns of plant diversity and plant–environmental relationships across three riparian corridors
J. Lyon and N.M. Gross (North Andover, MA, USA) 267
Evaluating vertebrate species risk on an industrial forest landscape
J.W. Higdon, D.A. MacLean (Fredericton, Canada), J.M. Hagan (Brunswick, ME, USA) and J. Michael Reed (Medford, MA, USA) 279
Mortality and stand renewal patterns following the last spruce budworm outbreak in mixed forests of western Quebec
M. Bouchard, D. Kneeshaw and Y. Bergeron (Montreal, Canada) 297
Soil properties and growth of swamp white oak and pin oak on bedded soils in the lower Missouri River floodplain
J.M. Kabrick, D.C. Dey, J.W. Van Sambeek, M. Wallendorf and M.A. Gold (Columbia, MO, USA) 315
Tree species and size structure of old-growth Douglas-fir forests in central western Oregon, USA
N.J. Poage and J.C. Tappeiner II (Corvallis, OR, USA) 329
Soil chemistry and nutrient regimes following 17–21 years of shortleaf pine-bluestem restoration in the Ouachita Mountains of Arkansas
H.O. Liechty (Monticello, AR, USA), K.R. Luckow (Hot Springs, AR, USA) and J.M. Guldin (Monticello, AR, USA) 345
Estimates of Douglas-fir fine root production and mortality from minirhizotrons
D.T. Tingey, D.L. Phillips, M.G. Johnson, P.T. Rygiewicz, P.A. Beedlow and W.E. Hogsett (Corvallis, OR, USA) 359
Fire frequency and area burned in the Roraima savannas of Brazilian Amazonia
R.I. Barbosa (Roraima, Brazil) and P.M. Fearnside (Amazonas, Brazil) 371
Effect of container type and seedling size on survival and early height growth of *Pinus palustris* seedlings in Alabama, U.S.A.
D.B. South, S.W. Harris (Auburn, AL, USA), J.P. Barnett (Pineville, LA, USA), M.J. Hainds and D.H. Gjerstad (Auburn, AL, USA) 385
Growth response by big-leaf mahogany (*Swietenia macrophylla*) advance seedling regeneration to overhead canopy release in southeast Pará, Brazil
J. Grogan (New Haven, CT, USA and Belém, Brazil), R. Matthew Landis (Middlebury, VT, USA), M.S. Ashton (New Haven, CT, USA) and J. Galvão (Belém, Brazil) 399
